About EIP Pharma

EIP Pharma, Inc. is a private, Cambridge, MA-based company advancing CNS-focused therapeutics for improved patient benefit. EIP's lead program is neflamapimod, a brain-penetrant oral small molecule that inhibits the enzyme p38 alpha, an intracellular kinase implicated in the development of synaptic dysfunction (SD) in Alzheimer's disease. EIP Pharma recently completed enrollment into the REVERSE-SD clinical study, a phase 2b proof-of-concept clinical study of neflamapimod in early Alzheimer's disease. The results of REVERSE-SD will be available in the fourth quarter of 2019. For more information, please visit www.eippharma.com.
